Subject: Your Audit Reponse Letter Dated November 12, 2014 Has Been Received- Jackson Environmental Field Office (JEFO)

Hi Wendy,

This email has two purposes and the first is to confirm receipt of your above referenced response letter to Jere Dougan's MS4 Audit Letter dated July 28, 2014. For your records, the office date stamp reflects a receipt date of November 17, 2014. I officially received your letter Tuesday, November 25, 2014.

The second part of this email and maybe the more important part is to propose a meeting after the first of the year between you, your City Engineer, Scott Chandler, Conner Franklin, my Manager, and me. This meeting is a request of my Manager, Conner Franklin. Like me, he too is new to the MS4 program and would like to meet the key people of each MS4 program that the Jackson Environmental Field Office (JEFO) has oversight responsibility.

Just to ease your mind should you think you are being singled-out, Conner and I are meeting with those involved with the Brownsville MS4 program on Thursday, December 4, 2014 and will get to the other MS4's as our developing inspection program is implemented. The JEFO's MS4 inspection program is currently a work in progress. Both Conner and I desire, however, the best for each of our seven MS4 programs and we believe that the more acquainted we are with each program and the people associated with them, the greater chance of success for each.

Please consider this request for an informal meeting (we could call it a meet and greet) important. I know we all have extremely busy schedules so it will be a challenge to make this happen, but we must make it happen for the potential benefits for all parties involved in MS4. Allow me to suggest a goal to meet around mid-January, 2015. I would also suggest that we block-out at least an hour and a half (1 ½) of time so we will not be rushed.

Will be in touch and have a wonderful Thanksgiving,

Sincerely,

James W. Scott
